

Community Impact Scorecard

Since our start in 1995, Albina Community Bank has always existed for the right reasons – to invest in individuals, families and our own neighborhoods here in Portland. We measure our success by more than simply the bank’s financial results. Thanks to your business and support of your local neighborhood bank, we continue together to build on everything that’s so right about this city.

Community Impact Scorecard	2009	2008	2007	Since 2002
